SYNERGY SCUBAPRO Mk2 EVO 1ST STAGE REGULATOR - DIN

Technical Specifications:

Product Code: SY-MK2-EVO-10.063.000

The classic downstream piston Scubapro MK2 EVO First Stage Regulator has been diving's go-to workhorse first stage for decades.

It is reliable, easy to use and won't put too big a dent in your pocketbook, and now it's more versatile than ever.

The MK2 EVO first stage comes with the patent-pending Extended Thermal Insulating System (XTIS) that lets you enjoy an ultra-fast breathing response and maximum airflow with minimal effort - regardless of how cold the water is.

The XTIS makes this possible by fully isolating the mechanical elements of the first stage from the cold, increasing freezing resistance by an average of 50 per cent over the old Mk2.

The Scubapro MK2 EVO First Stage Regulator is also more compact than the standard MK2, yet has a bigger piston that pumps out 15 per cent more airflow from a smaller package.

So you can expect top-notch breathing performance, whether reef diving in the warm Caribbean or wreck diving in the chilly Great Lakes.

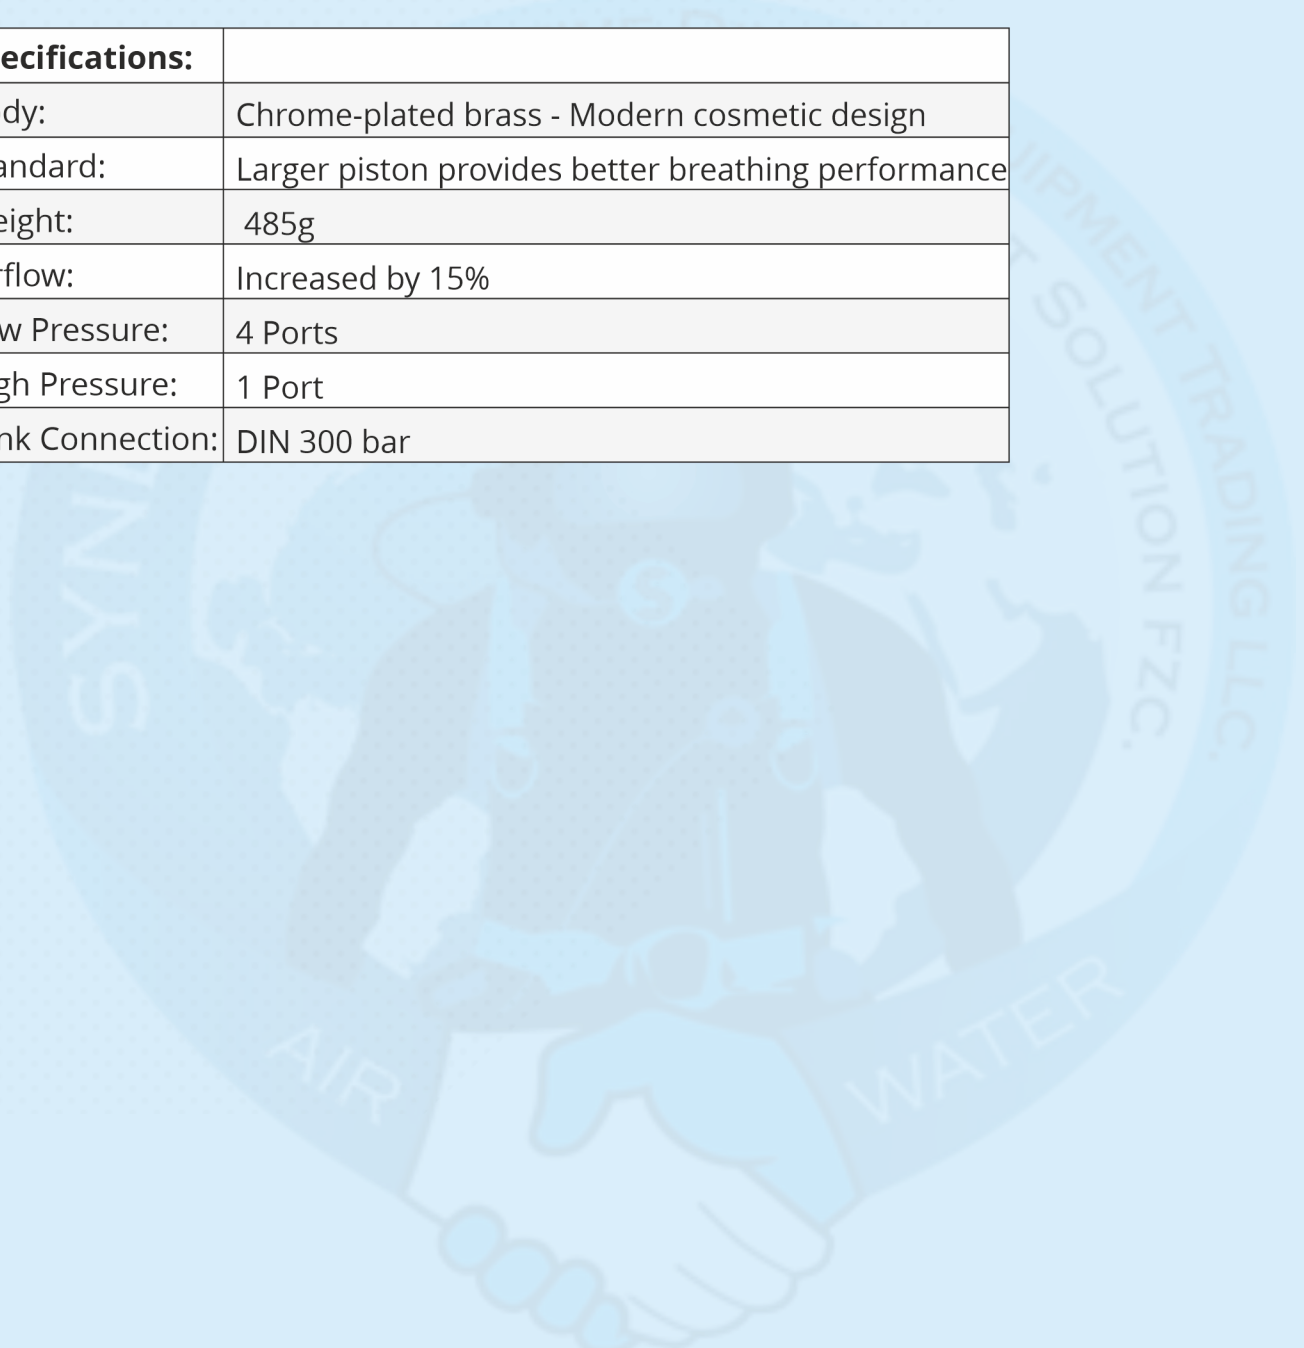

The new X-TIS (Extended Therman Insulating System - Patent Pending) with mechnism fully insulated from the environment, increasing freezing resistance by 50%!

SYNERGY SCUBAPRO Mk2 EVO 1ST STAGE REGULATOR - DIN

Specifications:	
Body:	Chrome-plated brass - Modern cosmetic design
Standard:	Larger piston provides better breathing performance
Weight:	485g
Airflow:	Increased by 15%
Low Pressure:	4 Ports
High Pressure:	1 Port
Tank Connection:	DIN 300 bar
